Beebe Hall Conference Room
Presentation Directions

Turn On the Display

1. Using the “Display” (Sony) remote, press the ON button (A).

2. To display the in-room computer, select PC (B). Be sure that computer is turned on.

Laptop Presentation

1. To display an image from a laptop, locate the “Laptop (VGA) Connector” cable at the left side of the display cart. Connect this to the VGA output on the laptop.

2. Select Laptop from the input section on the Display remote (B).

3. If needed, use the proper key sequence on the laptop to switch the video signal to laptop video output.

4. If you have sound in your presentation, insert the cable labeled “Laptop Audio (headphone) Connector” into the headphone jack on the laptop.

Volume can be controlled through the display by using the remote (C) and by the laptop controls.

VCR/DVD Playback

1. To show a video through the VCR/DVD player, select the Video button from the input section on the Display remote (B). Then, using the “S-Video” remote, press 2.

2. Use the “DVD&VCR” (JVC) remote to control the VCR/DVD player.

When Finished

1. Using the “Display” (Sony), press the “STBY” (Standby) button (A) to turn off the display.

2. Turn off the lights if no one is using the classroom afterwards.
