Using Remote Desktop

1. Launch the Human Ecology VPN and sign in and Connect

![Image of Connect VPN Connection]

2. Launch Remote Desktop Connection. In the Computer Field fill in with the computer name of your office system and Connect. The example below is the computer name of my office system.

![Image of Remote Desktop Connection]
If asked “Do you trust this connection” choose Connect.

A Windows Security window will display

Sign into your office system with \cornell\rh96 and your password.

You will now be connected to your office computer.
